

**Physicians Medical Center
Notice of Physician Availability**

Physicians Medical Center (the Hospital) is committed to providing high quality medical care for its patients. However, the Hospital does not operate a full service emergency department. Additionally, a physician is not on-site 24 hours per day, 7 days per week. In order to ensure the safety of its patients, the Hospital has developed policies and procedures to meet the needs of any patient who develops an emergency medical condition at a time when there is no physician immediately available at the Hospital.

Notice of Physician Ownership

Physicians Medical Center (the Hospital) meets the definition of a physician-owned Hospital under the federal regulations governing the Medicare program. Your physician may be among the physicians who own the Hospital. A complete list of Hospital physician ownership is available, upon request, from your receptionist.
